ments over other stoves are in part as follows:

1st. The arrangement for broiling on the front hearth,

an improvement overlooked in other first class stoves.

It has also the same arrangement for broiling on top.

2d. A thorough ventilation of the Oven.

3d. Introducing hot air draught to the fire chamber, thereby increasing the draught of the Stove, quickening its operations, and enabling it to throw out more heat—a matter much and justiv complained of in other Stoves.

4th. An important improvement in the application of the damper, which throws the heat around the oven.

5th. Much greater weight, consequently heavier plates, and more durable as well as handsomer castings.

6th. A draft damper at each end of the fire box, so that the fire is equalized, and one gridle will heat as quick as the other, size heating the oven in half the time.

7th. Fire back protected by scap-stone, so it cannot burn out.

Grafton, Dec 31 7858.

Messrs Sherwin and Burges, Agents for Madand's Patent safe. I have examined the Marland's patent Safe in your store, and so far as I am able to judge of its fire proof qualities, I believe the principle upon which it is built, the most reliable in resisting heat, of any fire processafe that has come under my observation and particularly recommend itto the attention our Probate Districts that are now supplying themselves, for the perservation of their records.

Brattleboro, Dec., 3d 1858.—This may certify that we have examined the Marlands Patent Fre Proof Safe, exhibited to us by Mr. Anson Hardy, and that in our opinion, Marland's Safe would be a desirabe one to purchase for the use of the Probate Courts.

Middelebury, April 27th, 1859.—The Legislature of Ver mont at its last session passed a law making it the daty of County Judges to procure Fire Proof Safes, in which to deposite Probate Records. In discharge of that duty to deposite Probate Records. In discharge of that duty we have spen some time in examineing a number of Safes we have come to the conclusion that the Marland Safe manufactured by M. B. Bigelow & Anson Hardy of Boston, Mass., is superior to any other we have examined for its Fire Pro f qualities.
